

# The Victorian Collection

Many of the tiles produced by the English manufacturers of the 19th Century were specifically designed for fireplaces. Here the standard requirement was for vertical 5-tile sets which were positioned either side of the grate. Original Style has reproduced a selection of the best of these for use as decorative wall tiles.

Their proportions make them particularly appropriate for shower cubicles, but as our photographs show, they can be successfully incorporated into a wide variety of settings.

To give added scope for imaginative interior decoration, Original Style has created matching floral borders for all

their Victorian tile sets. These can also be used as attractive decorative features in their own right.

Background glaze colours vary from one set to another; please take careful note of the colour before ordering matching field and moulded tiles.

6035B Border tile

Tiles used in this setting: 6006B Cameo Carousel (with harp) 5-tile set, 6033B Corner, 6034B Border, B9000 Colonial White Field tile, F9902 Rope, F9901 Victoria, F9000 Field tile, F9903 Skirting (all Burgundy). For flooring see Original Style Victorian Floor Tiles brochure.

The background glaze colour is Colonial White. See pages 32-38 for details of plain and moulded tiles.

## Victorian Continuous Patterns

These cleverly designed Victorian tiles are ideal for smaller tiled areas such as fitted kitchens and basin splash-backs. Laid in horizontal friezes or rectangular blocks they form attractive repeating patterns which can be neatly edged with matching moulded tiles.

Albert, GAQ9902 Rope,  
GAQ9908 Adelaide  
(all Aqua Source).

The background glaze colour is Colonial White. See pages 32-38 for details of plain and moulded tiles.

## Victorian Single Tiles

Perhaps the finest examples of the Victorian tile decorator's art are to be found in the floral designs of the period. Subtle, delicate colours are blended with intricate detail to create miniature masterpieces.

Original Style has selected these examples from museums and private collections and carefully reproduced them with the utmost attention to detail in both colour and line. They are equally suitable as running friezes or positioned randomly to add highlights to a field of plain coloured tiles.

Tiles used in this setting: 6012B Symmetrical floral pattern, 6013B Sweetbriar, F9929 Plain Cornice, F9900 Albert, F9908 Adelaide, F9909 Omega, F9901 Victoria, F9905 Dentil, F9002 Half field tile, F9903 Skirting (all Burgundy), A9000 Brilliant White Field tile. For flooring see Original Style Victorian Floor Tiles brochure.

6019B Symmetrical classical pattern

6020B Symmetrical classical quarter tile, measures 152 x 38 x 7mm (6" x 1 1/2" x 1/3")

◀ Tiles used in this setting: 6017B Single tile.

The background glaze colour is Colonial White. See pages 32-38 for details of plain and moulded tiles.

## Classical Decorative Borders

Flowers and foliage, ropes and columns - all mark out the sylvan style of these beautifully designed decorative borders.

Use their exquisite, colourful repeat patterns to create running friezes that add character to plain areas of tiling or, for additional impact, complement them with your selection of moulded trims from the range of Victorian Co-ordinated Tiles on pages 32 to 38.
